WORK OBJECTIVE

I would love to be able to get a job focused on web development, preferably in the Front-end section, since it really is a field that fascinates me, to which I want to dedicate my time, effort, knowledge, and desire, in order to grow each time. more, both in that work, as well as in the IT world.

INFORMATION ABOUT THE TECHNOLOGIES USED

(Web Development, JavaScript, React JS and Backend Programming) Knowledge of FlexBox, Grids, HTML, CSS, SEO, Git and GitHub, JavaScript, React JS, Node JS, Express, SQL, MongoDB, Bootstrap, SASS, AJAX, among others .

MY PROJECTS

- Complete front-end of an E-Commerce with HTML, CSS, SASS, and JS. Local Storage was used for data persistence.

- Complete front-end of an E-Commerce with React JS, CSS, and Hooks. In this case, Firebase was used for data persistence.

- Complete Front-end and Backend of an E-Commerce with JS, Node JS, Mongo, EJS, Socket and CSS.

- In all 3 projects, Git and GitHub were used to upload repositories.
